Loksabha Election Analysis Dashboard

Index

Voters Information

Women Representation

Objective-

In the dynamic landscape of trending election news, I am here to bring you insightful N detail analysis of India's Lok Sabha elections for the years 2014 and 2019. My mission include extract data from Election commission website, data transformation and understanding various aspects like voter demographics, assessing party performance, analyzing women's representation, investigating voter turnout, and conducting a comparative study between BJP and INC. Through effective visualization, this provide insights into electoral trends and shifts over the two election cycles.

Problem Statement

In the ever-evolving landscape of Indian politics, understanding electoral dynamics is crucial. As the curtain rises on the stage of democracy, my mission is to decipher the intricate brushstrokes that shape the political portrait. Within this dataset lie stories waiting to be told—the whispers of voters, and the quiet determination of candidates. My aim to unravel these narratives through depth analysis.
